EXPLORING

the practical as the atmospheric
the quiet yet dramatic
the useful as a standalone art object

Casting after casting we have developed
objects that have a textural pleasure.

A gentle 'soul' reveals to the touch and an elegant balance between the controlled and uncontrolled entertains the eye.

We call 'soul' the energy, the temperature,
the friendly texture and the object's aura in its surroundings.

Our material in feel, weight, durability and
quality is closer to stone.

WHAT

Cast objects from stone, marble and cement. Our pieces are crafted with the highest quality standards, they are handmade from our own casting materials in our own specialised molds.

WHY

Casting after casting has developed objects that have a textural pleasure, a gentle 'soul' reveals to the touch and an elegant balance between the controlled and uncontrolled entertains the eye. We call 'soul' the energy, the temperature, the friendly texture and the object's aura in its surroundings. Our material in feel, durability, weight and quality is closer to stone.

HOW

Our casting process requires a series of sculptural prototype models where proportions and balance is achieved. Our workshop team of sculptors and technicians are dedicated from the production of moulds to finish detail of the end product.

CASTING

The casting technique is a 7000-year-old manufacturing process in which a liquid material is poured into a mold. Because of their story about skill and procedure, some casts are collected as historical objects in a category of their own.

Casting is a meticulous craft that demands diligent recording of all stages of the process with numerical formulas to quantitatively predict the casting's mechanical properties, thermal stresses and distortions. Variables such as the aggregate's components, the weather or the water temperature are key factors in the solidification, durability texture and aesthetic finishing. Skill and artistry is required to control the end result through science, experience and instinct.

There are rituals in the casting process.

The ritual of the perfect prototype.

The ritual of the making of the negative imprint.

The ritual of the alchemic making of the pouring liquid.

The ritual of the de-molding process where the solidified object – 'the casting' - is ejected or broken out of the mold to come out into our world.

The casting craft is fascinating to people from various disciplines, as it is a methodical and disciplined creative process with a dose of unpredictability. Casting requires time, careful observation and waiting for the 'butterfly' to come out of its 'cocoon'. The end result will reveal if it is a failure, a success or a breakthrough. The 'de-molding' can be quite different depending on the type of mold used; it can be hard and quick or slow and gentle, much like the English and Greek words for casting:

In English to cast means to throw, a vigorous and quick act where the lading is where all eyes are turned to. Much like the short, abrupt and decisive sound of the word 'cast'.

In Greek the word for casting is 'hyteysis', it describes and focuses on the dispersal of a liquid into a cavity. The casting is the outcome of that genesis, and genesis takes time, waiting, and patience. In Greek, the casting process, 'hyteysis', is defined as the continuous act of creating flow. And much like the sound of the word of the origin verb 'heo' the act of casting is paced and has a gentle palpable flux. Greek ancient texts mention 'κεχρυμένοι ὀφθαλμοί' 'tearful eyes' or 'water flowing eyes'.

MOLDS

Mold-making is practising a form of art on its own. In modern Greek, the word for mold is 'metra' meaning the womb, the place where birth takes place, the place in which something transforms and takes its shape. In ancient Greek the word for mold is 'ekmageio' meaning to capture, to illustrate. It is quite fitting to the process that Plato once resembled the human soul with a wax mould where impressions engrave it.

In ALENTE we either use rigid molds, flexible molds or a combination of both. The different type of moulds require their own making techniques and result in different textures or 'soul' as we like to call it in our workshop. Complicated multiple-piece moulds are sometimes required. These can be fascinating structures of resemble an exoskeleton. Single or multiple, the moulds are the object's shells, encasing and giving form.

WHERE

Featuring a design studio and a fully equipped 600 sqm workshop supported by professional technicians, our designs are handmade in Greece by our staff and local artisans, pairing crafting artistry with innovative design and personal care.

Our products are made to last, selecting high-quality materials, thorough development and hands-on production excellence. Our research and design process is an integral part of our high-standard manufacturing operation.

WHO

Design

Operating since 2017, with a team of experienced and inspired architects, artists and technicians we strive to materialize our personal values and experiences. The end result is a product of continuous material blending, research and small discoveries.

People

Vassilis Sfiris studied fine art at the Chelsea College of Arts and the Byam Shaw School of Art, and film direction at the London Film School. Christina Kappou studied architecture at Greenwich University and North London University.

Deriving from the spanish word 'alentar' meaning 'to nourish to help grow', Alentes is an alliance of parallel disciplines with the aim to encourage, to nourish and to entertain ideas and artifacts that recall the feeling of a personal experience rather than paying a homage to it.

With exquisite craftsmanship and personal care we showcase handmade sculptural objects and furniture, and we are thrilled and humbled for each and every one that is welcomed into your home.

MATERIALITY

We fabricate our pieces with a unique aggregate of stone, marble and cement. Mixed and poured by hand, the objects cure for twenty days. They are then assembled and sealed with a protective coating. High in durability, all our objects are near care-free. Our cement castings come in extra white, velvet grey and deep black colors unless otherwise stated. Slight variations in size and color are due to the use of natural materials and to the handmade nature of our products – each is unique.

All our furniture are treated with a specialized matte varnish which makes surfaces non-absorbent thus making them suitable of outdoor use – unless otherwise specified.

All marble components are hand selected by the Alentes creative team and are hand polished. Suitable for indoor and outdoor use.

CUSTOM / PROJECT CURATION

Our creative team is highly experienced in architecture and interior design and we work closely with our clients to meet their requirements and achieve the best results. We showcase our full range of products in our headquarters where we can demonstrate in person our design and manufacturing standards.

AN AMBIENT ALCHEMY

ALENTES is essentially a sculptor's laboratory with a mission to decode the very essence of luxury furniture. We've harnessed the enduring strength of stone and marble, infusing them into our castings to create distinctive pieces that exude durability while enveloping your senses with a warmth that transcends the coldness of traditional stone.

ALENTES offers an experience that transforms your living space into an ambient sanctuary, where every piece is a testament to the fusion of art and functionality.

THE SENSORY VISION

Our commitment to artistry transforms each piece into a sculptural piece, delicately carved to reveal the gentle sparkle of stone and marble specs. As you run your hand across our furniture, you'll experience a subtle and intriguing tactile sensation, inviting you to engage intimately with the essence of our designs.

new collection

Medusa

Bench / Table

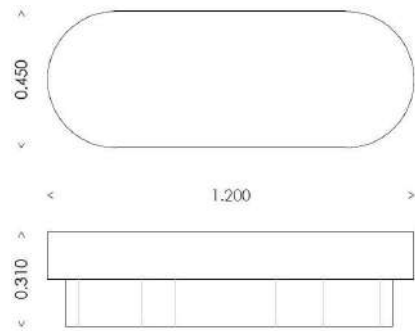

The MEDUSA table/bench is a captivating addition to our mono-material object collection. Its serene design is artfully complemented by the tactile allure of its sculpted texture.

Designed and handcrafted with high-quality materials by ALENTES in Greece, EU
Made from our own aggregate of stone, marble and cement. Mixed and poured by hand, the table is assembled and sealed with a specialized highly protective coating, which makes the surface non-absorbent and spill-resistant. The table is intended for indoor and outdoor use, and as any natural material, it is recommended to be placed under a covered area where there is no standing water. Slight variations in size and color are due to the use of natural materials and our products' handmade nature - each is unique.

The MEDUSA bench/table is of pill shape, it comes in two pieces with easy assembly.

Homme

Square centerpiece stand / bookstand

Playing with function and sculptural form Alentes Atelier presents a series of statement everyday objects and centerpieces. The simple yet sculptural nature of this piece brings an artistic tone to any setting. Made from our own aggregate of stone, marble and cement. High in durability, this object is near care-free. Slight variations in size and color are due to the use of natural materials and to the handmade nature of our products – each is unique.

All items are handcrafted in our workshop, pairing high end quality standards with great personal care.

The HOMME square centerpiece stand / bookstand comes in one size and in one piece and is ready to be placed.

SALES TERMS & GENERAL TERMS AND CONDITIONS

RIGHTS

ALENTES' products must carry the ALENTES brand name when sold or advertised.

All rights to the brand 'ALENTES' are owned by ALENTES.

The copyright for the design of ALENTES products – including all written texts and images belong solemnly to ALENTES.

However, you are allowed to copy texts and images when using proper references to ALENTES.

ALENTES has all the design rights of the products shown on its website and catalogues.

Any production, marketing or sale of replicas of the products is considered a violation of ALENTES immaterial rights.

PRICE CATALOGUE

This price list is valid upon its issue date and replaces all previously published price lists.

Please note that prices may change without prior notice. Reservation is made for any errors/omissions.

Your ORDER'S total is always based on the prices that are uploaded on our website www.alentes.com on the time of your purchase.

PRICES

All prices are in EUR and they exclude packaging, exclude shipping and shipping insurance (Ex works (EXW)).

SIZE & COLOR

Please note that thumbnail colors and sizes may vary from real object due to graphic representation.

Always advise description providing the accurate product information on alentesl.com or catalogue

QUOTE

PROFORMA INVOICE

Our QUOTE document informs you of product availability and production / shipping dates. Upon payment, you agree on those dates. QUOTE/PROFORMA INVOICE is valid for 30 days upon its issue date. Any change requiring more time between production completion and shipping may be charged with storage fees. Any later alteration / addition to the QUOTE will be charged in addition to the initial amount. QUOTE'S billing total is always based on the prices stated on the website on the date you place your order. ALENTES reserves the right to modify prices without prior notice, so it is wise to request a QUOTE at a timely manner. If you wish to change the requested items or the delivery location, please let us know so we can issue new shipping costs.

ORDER

Please note that our products are hand-crafted upon ordering and are non-refundable. Once your order has been placed and you wish to change it for another item / items, you need to contact us as soon as possible. If your original order has not yet been processed in the production phase, we will happily change your order. If the item has been processed in the production phase, it will not be possible to change your order.

PRODUCT INFORMATION

You may follow the link below the product's description in this catalogue. This link will take you to the product's webpage in www.alentes.com. You may view images of the product's variations, download the product's spec sheet and read more about the product.

ALENTES does not give any guarantee regarding the suitability of the products for a specific use intended by the customer. It is part of the responsibility and obligations of the customer to inquire about the specific compatibility of his purchase with his personal needs.

PAYMENT

Payment terms is by standard PIA; payment in advance. The customer must pay the total amount stated in the QUOTE / PROFORMA INVOICE document in full before delivery - unless different payment terms are agreed upon.

INVOICE

You need to provide us with the necessary information, such as Company Name, Occupation, VAT Reg Number, Delivery Address, Delivery Contact Details, Billing Address, Billing Contact Details. The INVOICE will be issued upon shipping.

DELIVERY – SHIPPING

All shipping charges, duties, customs taxes, additional freight charges due to express delivery requirements, difficult or delayed delivery access, special delivery requirements, special vehicle requirements or other non-standard freight charges are at the paid by the customer.

Goods from ALENTES will be ready to ship within the lead times specified. You will be given by the carrier the tracking details regarding the time of delivery so you can make sure to be at the address upon delivery. Failure to do so is not ALENTES' responsibility. Curbside delivery is customary – if you wish otherwise, please contact couriers. We do not deliver to PO boxes. Delivery times are indicative if there are no physical or structural impediments (e.g. incorrect addresses) or events such as strikes, natural disasters, problems related to shipping / delivery / manufacture, governmental actions and / or regulations.

WORLDWIDE DELIVERY

The QUOTE document ensures best rates and delivery times for worldwide destinations. Curbside delivery is customary – if you wish otherwise, please contact couriers. We do not deliver to PO boxes.

For delivery outside of European Union, the customer must settle the customs duty tax, VAT or other taxes which may be imposed in order to deliver the product. This is not included in the approximate delivery time. For information regarding duties and taxes, please contact your local customs office.

PRODUCT AVAILABILITY

All of ALENTES products are handmade upon order so lead times are depended upon requested quantity. We do hold a small permanent stock however most orders and especially large items are hand-made upon request. Shipping date specified on QUOTE is the date the goods will be finished in production. The goods will be available for dispatch the following business day. This date does not include transportation time to deliver to the customer's nominated delivery address. Please note that orders of large items or bulk orders placed after 5th of December will be delivered on the New Year. In case you need your order before Christmas, it is best to contact us via email or telephone to arrange best delivery times and charges with you. Orders placed after 01 of July will be processed in 01 of September as all production seizes during the month of August.

SHIPPING INSURANCE / DAMAGES

All shipping items are insured. Surcharge includes safety packaging for all items - big / fragile items are place in wooden boxes. ALENTES packs the goods according to shipping rules of fragile items and we deliver them to the couriers in perfect condition. The carrier is responsible for damage during transportation. We recommend checking on the condition of the delivered goods before signing the acknowledgement of receipt for the package.

In case of delays during transport it is up to the customer to contact the carrier, without it being the responsibility of ALENTES.

In the case of damage during transport, the Customer must contact ALENTES as soon as possible - the same or the next day from the receipt of the goods. Photographic documentation of the damaged casing and goods is necessary to proceed with claim. The carrier's insurance will refund ALENTES for the value of the property and we will then ship a brand-new item to the Customer without any extra charge.

GUARANTEE

We guarantee that all ALENTE'S products sold directly from ALENTE'S are free from manufacturing faults and defects for a period of 24 months from the date of original delivery. In the event that a product is proven to be defective, you are entitled to the restoration of the goods through repair or replacement, whichever is decided as being the most efficient and effective remedy. The guarantee does cover:

- Possible dismantling of the object's parts
- Casting cracks that are larger than hairline cracks (>1.0mm). The guarantee does not cover:
- Damages that are caused by not following the CARE GUIDE instructions by erroneous maintenance and/or improper use of the goods
- Chipping of top/bottom edges resulting from not following the CARE GUIDE instructions
- Water corrosion damage that results from not following the CARE GUIDE instructions
- Discoloration due to weather conditions
- Hairline cracks that 1.0mm or smaller.

RETURNS

Since our products are manufactured upon demand, we do not accept returns if there is no technical default. In case of technical default please notify us within 5 days from the time of delivery. Defective merchandise will be replaced or refunded if the replacement with the same product is not possible. Returns are accepted within 5 days from the time of delivery and only if the products and their packaging are in the same condition as received. The product must not have been used, or have suffered even the minimal damage and it must be in a state of perfect cleanliness. We will arrange with you to send us back the item and we will replace it free of charge and shipping costs. We will operate with the utmost speed in order to reduce waiting times. We are not responsible in any way for damage or theft / loss of goods returned by uninsured shipments. If the goods have been damaged during the transport, we will inform the Customer within 5 working days from the receipt of goods, to enable him to do a timely complaint against the carrier of choice and get a refund of the value of the property (if insured).

CUSTOM ORDERS

ALENTE'S is able to undertake custom orders for bespoke designs. We will review the request and notify you as soon as possible. Pricing is formed depending on the research and design, development and the materials used. No product returns are accepted from custom orders. There will be a fee for design and then a fee for production. If during or after the designing process of the product, the customer decides that he/she does not want to produce it, the fee for the design is not refundable. The copyright of all custom designs and documents shall remain the property of ALENTE'S. ALENTE'S may (at no cost) use for the purposes of marketing or entry into any competition, any documents, designs, drawings or photographs of custom designs.

By making a purchase order, the customer accepts and is responsible to abide by the general conditions presented herewith in his account with ALENTE'S. The general conditions of sale must be examined by any customer before making a payment. Payment states a total understanding and a complete acceptance of these general conditions of sale. The products are not supplied on a trial.

Although the website and the catalogue could provide useful information about the features of the products, the customer is responsible for choosing the ordered products and for the compliance and conformity of the specifications with his own needs. The published images are illustrative. ALENTE'S reserves the right to modify or update the current terms and conditions of trade.
